**Banco de Guatemala**

Octubre 2025

## **Producto Interno Bruto**

## **Trimestral**

## **Año de referencia 2013**

El Banco de Guatemala se complace en poner a disposición de los agentes económicos nacionales y de la comunidad internacional, los principales resultados de las Cuentas Nacionales Trimestrales (CNT), compiladas al segundo trimestre de 2025.

La elaboración de las CNT se realiza siguiendo los lineamientos metodológicos establecidos en el más reciente Manual de Cuentas Nacionales Trimestrales del Fondo Monetario Internacional (FMI), el cual es plenamente compatible con el Sistema de Cuentas Nacionales. Las CNT suministran información necesaria para detectar los cambios de corto plazo que se producen en la evolución de la economía.

La compilación de las CNT incluye estimaciones del Producto Interno Bruto Trimestral (PIBT), medido por el origen de la producción y por el destino del gasto, en valores corrientes y en medidas encadenadas de volumen con año de referencia 2013, correspondientes al período que comprende del primer trimestre de 2013 al segundo trimestre de 2025.

En ese sentido, en el apartado A de este documento se presenta la gráfica y el cuadro que contiene la serie y las variaciones interanuales del Producto Interno Bruto Anual (PIBA) y del Producto Interno Bruto Trimestral (PIBT). En el apartado B se presentan las gráficas que contienen las variaciones interanuales de los componentes del PIBA y del PIBT, medidos por el origen de la producción.

En el apartado C se presentan las gráficas que contienen las variaciones interanuales de los componentes del PIBA y PIBT, medidos por el destino del gasto; y por último, en el apartado II se presentan los cuadros estadísticos que contienen los valores y las tasas de variación correspondientes de la estimación del Producto Interno Bruto Trimestral, medido por el origen de la producción y por el destino del gasto, tanto a precios de cada año como en medidas encadenadas de volumen con año de referencia 2013.

Se espera que las series que se presentan sean de utilidad para el análisis, planificación y toma de decisiones para el sector público y privado, así como para la comunidad internacional, en virtud de que permita evaluar de manera más oportuna la evolución de la economía nacional.

Gasto de consumo final de los Hogares y de las Instituciones Privadas Sin Fines de Lucro  
Tasas de variación interanual  
Período: 1T-2020 al 2T-2025

### 2. Gasto de consumo final del Gobierno General

Gráfica 20

Gasto de consumo final del Gobierno General  
Tasas de variación interanual  
Período: 1T-2020 al 2T-2025

### 3. Formación bruta de capital fijo

**Gráfica 21**

Formación bruta de capital fijo  
Tasas de variación interanual  
Período: 1T-2020 al 2T-2025

### 4. Exportaciones de bienes y servicios

**Gráfica 22**

Exportaciones de bienes y servicios  
Tasas de variación interanual  
Período: 1T-2020 al 2T-2025

## 5. Importaciones de bienes y servicios

**Gráfica 23**

Importaciones de bienes y servicios  
Tasas de variación interanual  
Período: 1T-2020 al 2T-2025

## II. Cuadros estadísticos

---

### Cuadro 1

---

Producto Interno Bruto Trimestral (PIBT), medido por el origen de la producción, en millones de quetzales de cada año.

### Cuadro 2

---

Producto Interno Bruto Trimestral (PIBT), medido por el origen de la producción, tasas de variación interanual de los valores de cada año.

### Cuadro 3

---

Producto Interno Bruto Trimestral (PIBT), medido por el origen de la producción, millones de quetzales en medidas encadenadas de volumen con año de referencia 2013.

### Cuadro 4

---

Producto Interno Bruto Trimestral (PIBT), medido por el origen de la producción, tasas de variación interanual de los valores en medidas encadenadas de volumen con año de referencia 2013.

### Cuadro 5

---

Producto Interno Bruto Trimestral (PIBT), medido por el destino del gasto, en millones de quetzales de cada año.

### Cuadro 6

---

Producto Interno Bruto Trimestral (PIBT), medido por el destino del gasto, tasas de variación interanual de los valores de cada año.

### Cuadro 7

---

Producto Interno Bruto Trimestral (PIBT), medido por el destino del gasto, millones de quetzales en medidas encadenadas de volumen con año de referencia 2013.

### Cuadro 8

---

Producto Interno Bruto Trimestral (PIBT), medido por el destino del gasto, tasas de variación interanual de los valores en medidas encadenadas de volumen con año de referencia 2013.

**Cuadro 1**  
**PRODUCTO INTERNO BRUTO TRIMESTRAL (PIBT), MEDIDO POR EL ORIGEN DE LA PRODUCCIÓN**

PERÍODO: 1T-2019 - 2T-2025

Millones de quetzales
